

FRENCH DOORS

La Finestra ingenuity, technology and expertise have contributed to the making of possibly the best French door on the market. Our unique 5 point locking system combined with a double EPDM gasket ensures a tight lock. The precision is such that the door closes with simple touch of the finger and all locks engage simultaneously with a singular motion the handle.

MAIN FEATURES

- **Strong** profile
- **Elegant and resilient** virtually seamless 45° miter corner with laser-like precision cut
- Aluminum key corner joint
- Concealed screws
- Up to 10 ft tall
- Arched doors available
- 5-point locking system in 366 marine-grade stainless steel
- Top and bottom shoot-bolts automatically engaged
